About the Atlas

The [National Equity Atlas](#) is America's most detailed report card on racial and economic equity, produced through a partnership between PolicyLink and the USC Equity Research Institute. We equip movement leaders and policymakers with actionable data and strategies to advance racial equity and shared prosperity.
Contents

Demographics
- Race/ethnicity 5
- Racial generation gap 6

Economic Vitality
- Working poor 8
- Unemployment 9
- Business ownership 10
- Income growth 11
- Extreme economic insecurity 12

Readiness
- Educational attainment 14
- Student debt 15
- Disconnected youth 16
- School poverty 17

Youth incarceration 18
Children with 2+ ACEs 19
COVID-19 vaccination rates 20
Voter registration and turnout 21

Connectedness
- Air pollution exposure 23
- Car access 24
- Housing burden 25
- Rent debt 26
- Neighborhood poverty 27
- Residential segregation 28

Economic Benefits
- GDP gains 30
- Racial equity in income 31
Demographics
People of color now make up 37 percent of the state’s population, compared to just 27 percent in 1980.

Race/ethnicity, Alabama, 1980-2020

Source: National Equity Atlas analysis of the decennial Census and five-year American Community Survey microdata from IPUMS USA and the 2020 Decennial Census Redistricting Data. Note: Percentages are not displayed for groups that comprise <2% of the population.
The racial generation gap grew from 8 percentage points in 1980 to 20 percentage points today.

Percent people of color by age group, Alabama, 1980-2019

Source: National Equity Atlas analysis of the decennial Census and five-year American Community Survey microdata from IPUMS USA.
Economic Vitality
More than one in three Latino immigrants are working full time and still economically insecure

Percent working poor by race/ethnicity and nativity, Alabama, 2019

- All U.S.-born: 12%
- All immigrant: 23%
- White U.S.-born: 9%
- White immigrant: 7%
- Black U.S.-born: 19%
- Black immigrant: 16%
- Latino U.S.-born: 17%
- Latino immigrant: 37%
- Asian or Pacific Islander U.S.-born: 2%
- Asian or Pacific Islander immigrant: 9%
- Mixed/other: 14%

Source: National Equity Atlas analysis of 2019 five-year American Community survey microdata from IPUMS USA.
While overall employment has increased relative to January 2020 levels, low and middle-wage jobs lag behind.

Employment levels relative to January 2020, Alabama

Black entrepreneurs are highly underrepresented among firms with paid employees

Firms (per 100 workers) by race/ethnicity, Alabama, 2018

- All: 2.8
- White: 3.6
- Black: 0.3
- Latino: 1.2
- Asian or Pacific Islander: 15.1
- Native American: 3.8
- People of color: 1.1

Source: National Equity Atlas analysis of the Annual Business Survey and NES-D series; the Survey of Business Owners; and the American Community Survey.
Only workers at the top of the income distribution have seen positive income growth since 1980

Earned income growth for full-time wage and salary workers, Alabama, 1980-2019

Source: National Equity Atlas analysis of the 1980 decennial Census and the 2019 five-year American Community Survey microdata from IPUMS USA.
More than two in three Latino residents are having financial difficulties

Difficulty paying usual household expenses in the last seven days by race/ethnicity, Alabama, 2021

Source: Child Trends analysis of data from the U.S. Department of Health and Human Services, Health Resources and Services Administration, Maternal and Child Health Bureau, National Survey of Children’s Health.

Note: Children were included if the respondent answered that the child had ever experienced two or more of the following adverse experiences: frequent socioeconomic hardship, parental divorce or separation, parental death, parental incarceration, family violence, neighborhood violence, living with someone who was mentally ill or suicidal, living with someone who had a substance abuse problem or racial bias.

Adverse childhood experience, also known as ACEs, are potentially traumatic events that occur in childhood (0-17 years). ACEs are linked to chronic health problems, mental illness, and substance use problems in adulthood. ACEs can also negatively impact education, job opportunities, and earning potential.
Asian residents have the highest COVID-19 vaccination rates in the state by far

Percent of population that has received at least one COVID-19 vaccine dose by race/ethnicity, Alabama, December 2021

- White: 46%
- Black: 46%
- Latino: 50%
- Asian: 75%

Source: Kaiser Family Foundation (KFF) analysis of publicly available data on state websites; total population data used to calculate rates based on KFF analysis of 2019 American Community Survey data. Note: States vary in whether they include or exclude Hispanic people from their racial groups and in their racial classifications. Total population data used to calculate rates is matched to each states’ racial classification approach. Rates may not match those reported on state websites due to differences in the source for total population data and/or ages included in the total population.
White voters had higher registration and turnout rates than Black voters in 2020, but turnout was below 65 percent

Source: Table 4b from the Census Bureau's data on Voting and Registration in the Election of November 2020.
Black residents are slightly more likely to live in neighborhoods with high exposure to air toxins

Air pollution exposure index by race/ethnicity, Alabama, 2019

Source: National Equity Atlas analysis of National Air Toxics Assessment data from the U.S. Environmental Protection Agency.
More than one in eight Black households in Alabama lack access to a vehicle

Source: National Equity Atlas analysis of the 2019 five-year American Community Survey microdata from IPUMS USA.
Sixty percent of households headed by Black women are paying more than 30 percent of their income for rent.

Rent burden by race/ethnicity and gender, Alabama, 2019

Source: National Equity Atlas analysis of the 2019 five-year American Community Survey microdata from IPUMS USA.
Roughly 96,000 households (or 19 percent of renters) are behind on rent, and 60 percent are people of color

Percent of households behind on rent, Alabama, 2021

…who are people of color

60%

…who have incomes <$50k

87%

ConnectEdness

Latinos are three times and Black residents five times as likely as whites to live in high-poverty neighborhoods

Race and class segregation remains very high across the state, particularly in Birmingham and Huntsville.

Index of concentration at the extremes for racialized economic segregation, Alabama, 2019.

Source: National Equity Analysis of the 2019 American Community Survey five-year estimates. Notes: The index ranges from -1, signifying that the census tract is comprised only of low-income Black households and 1, signifying that the census tract is comprised only of high-income white households. Census tracts with less than 100 households were excluded (in grey).
If there had been no racial gaps in income in 2019, the state GDP would have been about $28 billion larger.

Actual GDP and estimated GDP with racial equity in income (billions), Alabama, 2019.

Source: National Equity Atlas analysis of the 2019 five-year American Community Survey microdata from IPUMS USA.
With racial equity in employment and wages, average incomes for Black residents would grow by over 50 percent.

Income by race/ethnicity, Alabama, 2019

Source: National Equity Atlas analysis of the 2019 five-year American Community Survey microdata from IPUMS USA.
Data Notes

Data for 2010 and 2019 represent five-year averages (i.e., 2006-2010 and 2015-2019).

Data for certain race/ethnicity categories are excluded due to small sample size of survey respondents.

High-poverty neighborhoods are defined as census tracts with a poverty rate of 30 percent or higher.

Housing burden is defined as renter-occupied households that are spending more than 30 percent of income on housing costs.

High-poverty schools are defined as public elementary and secondary schools with 75% or more students eligible for free or reduced-price lunch. In 2014, Alabama implemented Community Eligibility Provision, allowing school districts with a poverty rate above 40 percent to provide free school lunch to all children without an application.

Working poor is defined as those who work full-time and have a family income below 200 percent of the federal poverty level.
